

Beeren Plantproducts B.V.
Brumholt 5a
6086 PV NEER

14 November 2017

Herewith we,

the Netherlands Inspection Service for Horticulture (Naktuinbouw) charged by the Dutch government with the official quality control of seeds and plants of horticultural crops in the Netherlands declare, that

Beeren Plantproducts B.V.//

is a registered company under number 7587 in the Netherlands (since 1989 as a producer of asparagus plants). Beeren Plantproducts B.V. is registered under the control of the Naktuinbouw-inspection system and continuously monitored by Naktuinbouw.

Registered companies are as such bound to follow the regulations of Naktuinbouw and are to refrain from all acts resulting in violation of the legal objectives in the scope of Naktuinbouw.

Naktuinbouw declares that the varieties of asparagus plants produced and delivered by Beeren Plantproducts B.V. are not of GMO origin. The Netherlands production companies, registered to Naktuinbouw, do not produce varieties of asparagus plants which are originated from GMO. Also an undesirable mixture can be excluded. Therefore the material can be considered as free from GMO's.
