NON-GMO DECLARATION

Beeren Plantproducts BV declares that all products produced and traded by the company have been developed through conventional breeding methods, without the use of genetic modification techniques.

Should we in the future include in trials or place on the market varieties that are considered genetically modified varieties (GMOs – Genetically Modified Organisms), we will disclose this accordingly.

A handwritten signature in blue ink, consisting of a stylized 'J' and 'B' intertwined, enclosed within a large, loopy oval.
