

Beeren Plantproducts B.V.  
Brumholt 5a  
6086 PV NEER  
THE NETHERLANDS

7 August 2014

Herewith we,  
the Netherlands Inspection Service for Horticulture (Naktuinbouw), charged by the Dutch government  
with the official quality control of strawberry plants in the Netherlands, declare, that

BEEREN PLANTPRODUCTS B.V. //

is an affiliated company under number 7503 of Naktuinbouw as a producer of strawberry plants. The production of strawberry plants in the Netherlands is under the control of the Naktuinbouw inspection system and continuously monitored by Naktuinbouw.

Affiliated companies are as such bound to follow the regulations of Naktuinbouw and are to refrain from all acts resulting in violation of the legal obligations concerning the scope of Naktuinbouw.

Naktuinbouw declares that the varieties of strawberry plants produced and delivered by Beeren Plantproducts B.V., are not of GMO origin. The Netherlands producing companies, affiliated to Naktuinbouw, do not produce varieties of strawberry plants which are originated from GMO. Also an undesirable mixture can be excluded. Therefore, the material can be considered as free from GMO's.

The Netherlands,  
R.A.Th Bleijswijk  
Head of Inspections
